

Quiz: 6.G.A.4

1. The figure below represents a canvas tent that can attach to the side of a camping vehicle. When disassembled, the tent can be unfolded so it lies completely flat and forms a net of the tent.

Describe the net. Write your answers in the spaces provided.

The net has _____ faces.

How many faces are congruent triangles? _____

How many faces are congruent rectangles? _____

The surface area of the tent is _____ square feet.
