

WHO WE ARE

Since 2001, we've partnered with educators, learning institutions, and innovative organizations around the world to create meaningful learning products for students of all ages. Our work can be found in some of the most widely used and highly regarded educational products available today, including online courses, open educational resources, interactive textbooks, and assessments.

OUR PRODUCTS

We launched Wisewire in 2016 to bring our knowledge of assessment validity, open educational resources, and standards-based teaching directly to teachers through our own product line. Our store includes downloadable standards-aligned resources for lesson planning and assessment that can be supplemented further with additional curated open educational resources and premium computer-based assessments available through our site. Teachers are welcome to sign up for a free account to create and assign their own digital assessments at Wisewire.com.
