Spend Your Summer Wisely

Wisewire's platform allows you to create computer-based assessments (think: drag and drop, graphing, matching, etc.) for your students, free! Start with our templates or clone from the sample questions available. [Learn more](#)

This Month's Q&A

What is competency-based education (CBE)?

CBE focuses on outcomes, or the mastery of specific skills. Competency-based models are particularly useful in higher education where a learner can focus intently and "test out" of course modules with the opportunity to progress quickly. How can

you design courses for efficient learning and actionable data? Read more [on our blog](#).

Have a burning edtech question? [Ask us](#) and see it in our next newsletter!

Summer Conference Calendar
